I am a very hard working and dependable man, I value safety and take pride in my work. I believe integrity is an important factor in my everyday life. I value family and friends as well as the great outdoors. I believe in asking questions in order to get the job done right as oppose to "winging" it and ending up with an unsuccessful job. I pride myself in work attendance as well as keeping a neat and respectable appearance. I hope I am the candidate you're looking for and can't wait to start this next journey.
